Content

Iconography

I will divide the icons according to their meaning, usefulness and the area where they will be placed.

Functionality

These icons will be used to indicate the functionalities of the website.

Accessibility

These icons will indicate accessibility options, such as enlarging the text, zooming in and out, etc.

Informative

These icons will be used to summarize information visually, i.e. to summarize the text they accompany.

Social

These icons will reflect social features such as access to social networks or content sharing.
